The large number of small finds is a reflection of two factors: the scanning of the area for non-flinty small finds, and the greater tendency for metal detectors to be used on the site. There is a strong possibility that the area to the north of Building 3 was used for milling purposes. There is also a strong possibility that the area to the north of Building 3 was used for milling purposes.

The discovery of a military ditch in Area B has significantly strengthened the probability that the earliest buildings were the work of the Roman military. If this is correct, then the presence of presumably high-ranking officers at Fishbourne at the time of the discovery of the ditch is significant. Whether some or all of these buildings were the work of the Roman military is problematic.

The ditch was filled with material resembling redeposit natural clay. There is no doubt the ditch was deliberately backfilled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.

The ditch was filled with material resembling redeposit natural clay. Whether some or all of the ditch was filled with material resembling redeposit natural clay is problematic.
