

Vale.

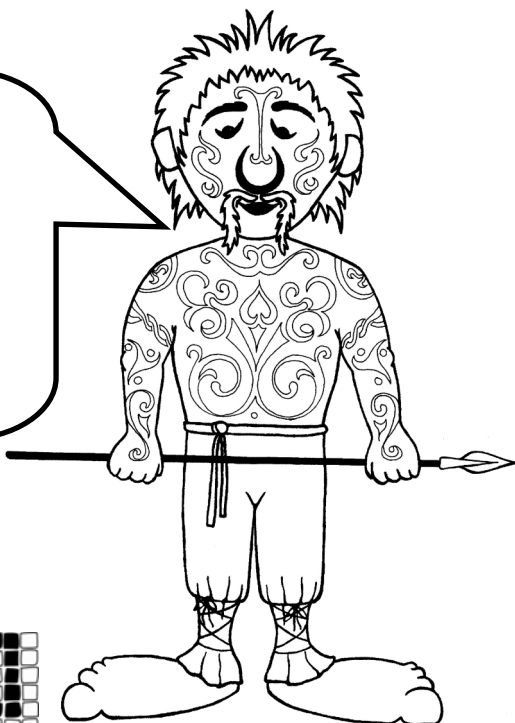

I hope you have enjoyed finding out about the
Romans here at Fishbourne.
Come back and visit us soon.

I am a **Celt**.

I lived near the Palace in my
roundhouse.

My tribe were friends with the
Romans.

You can colour me in if you like.

Snapshots of Fishbourne

Salve.

My friends and I will help you explore
Fishbourne.

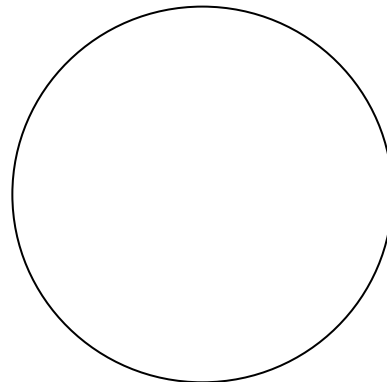

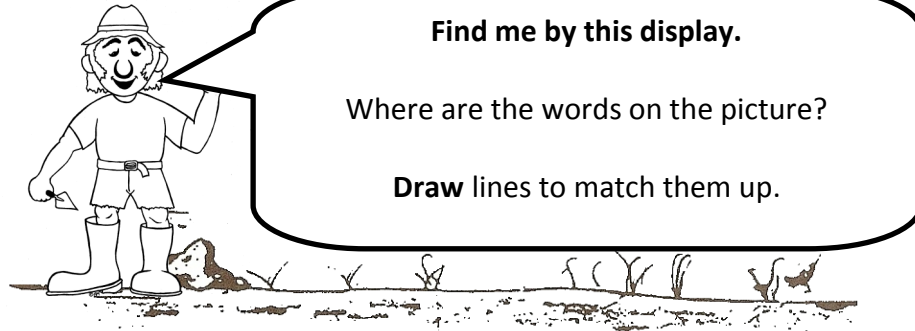

You will need to **look hard**, **draw** things,
talk to people
and

do lots of thinking!

Look for us as you go around!

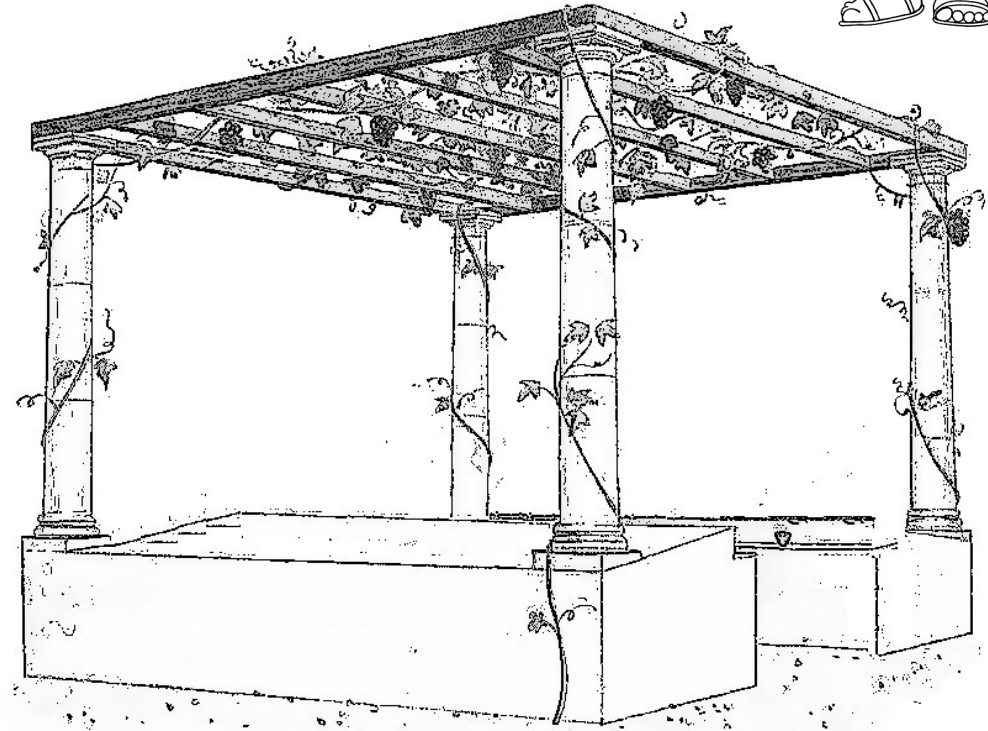

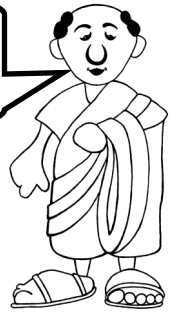

The Museum

Find me by the Triclinium.

This is where the Romans ate.

Draw the people enjoying their meal.

What is the plant growing over the Triclinium?

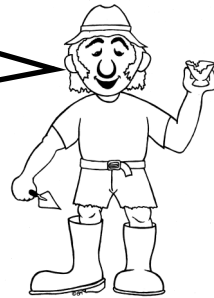

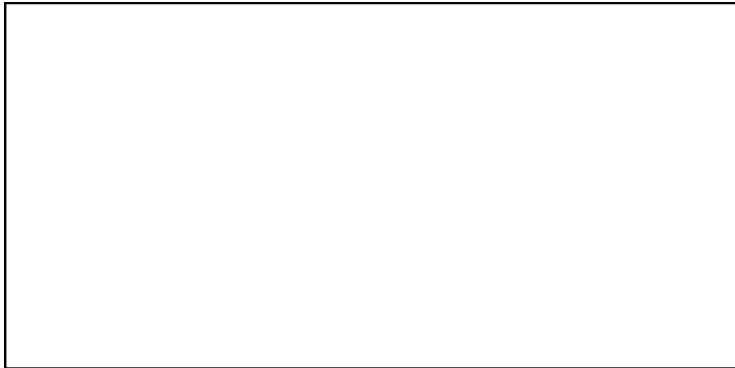

The Gardens

You can only see **half** of the garden today. There is a road and houses where the rest should be.

Look hard at the shapes of the hedges.

Draw some of the patterns in the box below.

Find the **Plants Garden**.

Romans used plants for many reasons.

Write the name of one of the plants and **draw** a picture of, or **write about**, what it was used for.

Look Hard at the Roman Army display!

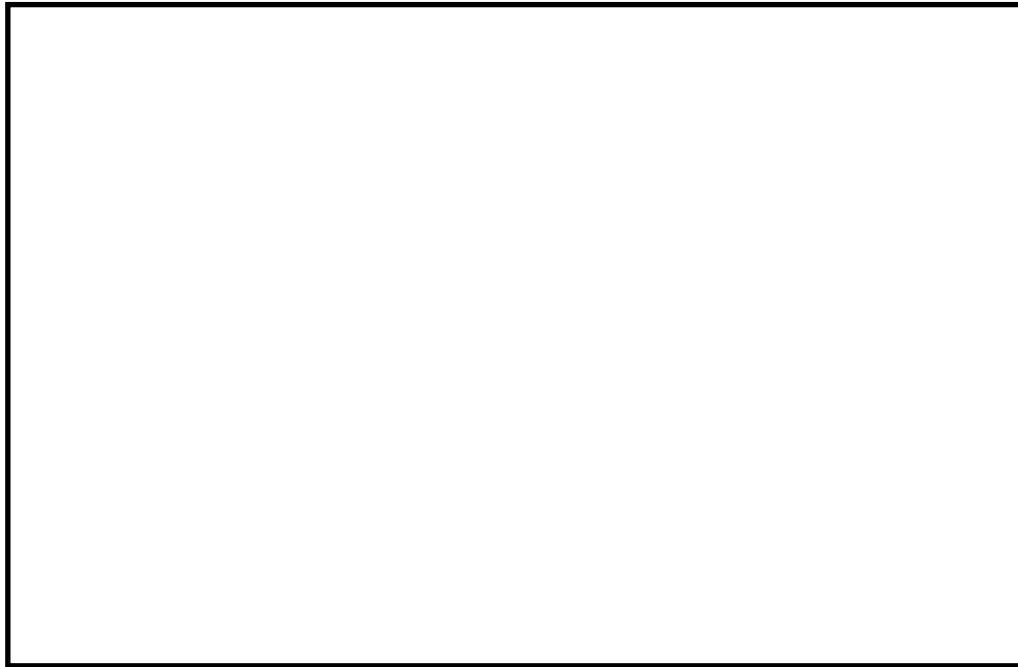

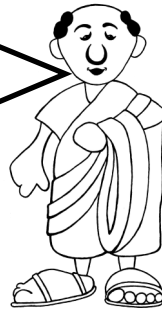

This is my friend Octavius. He is wearing a different uniform to me. **Can you colour** in the **pieces of his uniform** we found at Fishbourne.

Find me by the large carving on the wall.

Talk to a friend or helper about the things in the picture.

Draw or write about your favourite part.

Find and draw a Roman key.

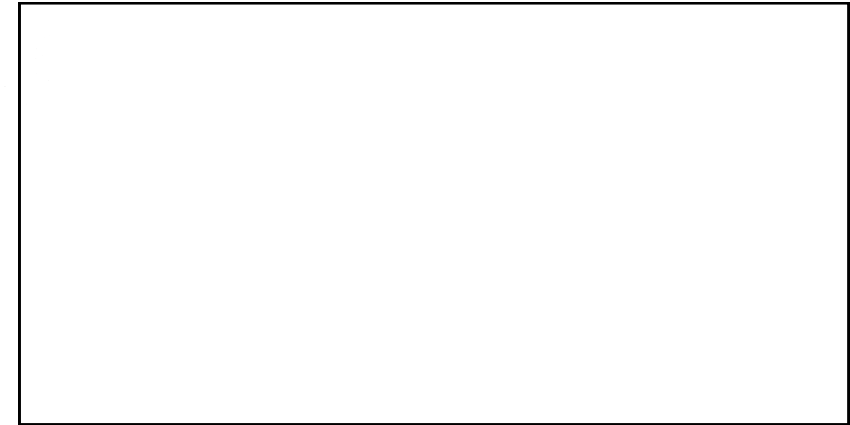

Find me by the skeleton in the ground.

The skeleton is really exciting but it is **not** Roman.

Draw or write about the skeleton.

Find me by the large black and white mosaic down the steps near the skeleton.

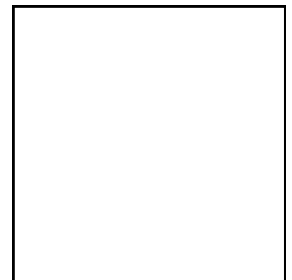

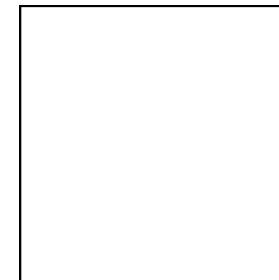

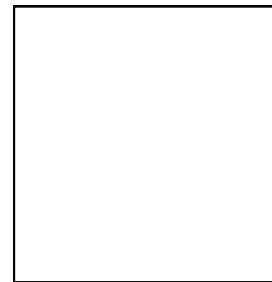

I love the patterns in this mosaic. **Look hard.**

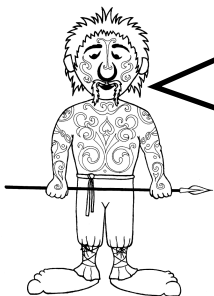

Does it make your eyes go funny?

It was once just one big room!

Draw three different patterns in the boxes.

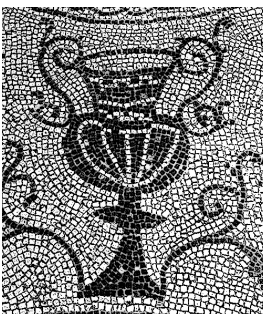

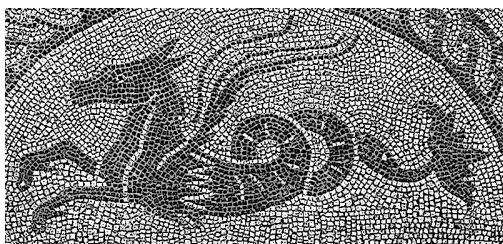

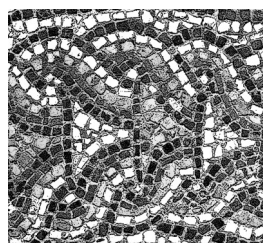

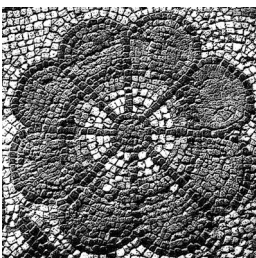

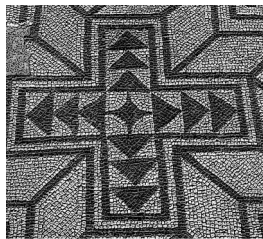

Find these mosaic patterns.

Which ones can you see on the **Dolphin mosaic**?

Some are based on **Celtic** patterns.

Find me by the display of pottery.

Draw or **describe** a pot used in the kitchen, a pot used in the dining room and an oil lamp.

A pot used in the kitchen

Look out for a large plain pot.

A pot used in the dining room

Look out for a decorated pot.

An oil lamp

Find me by the display of materials used
to build the Palace.

Draw a roof tile.

Look hard. Can you see footprints in the tiles?

Touch the footprints.

Who, or what, made them?

Find me by the Dolphin Mosaic.

Draw the middle of the mosaic.

Look for a **black bird on a leaf**.

Draw it in the box.

Why do you think it is there?

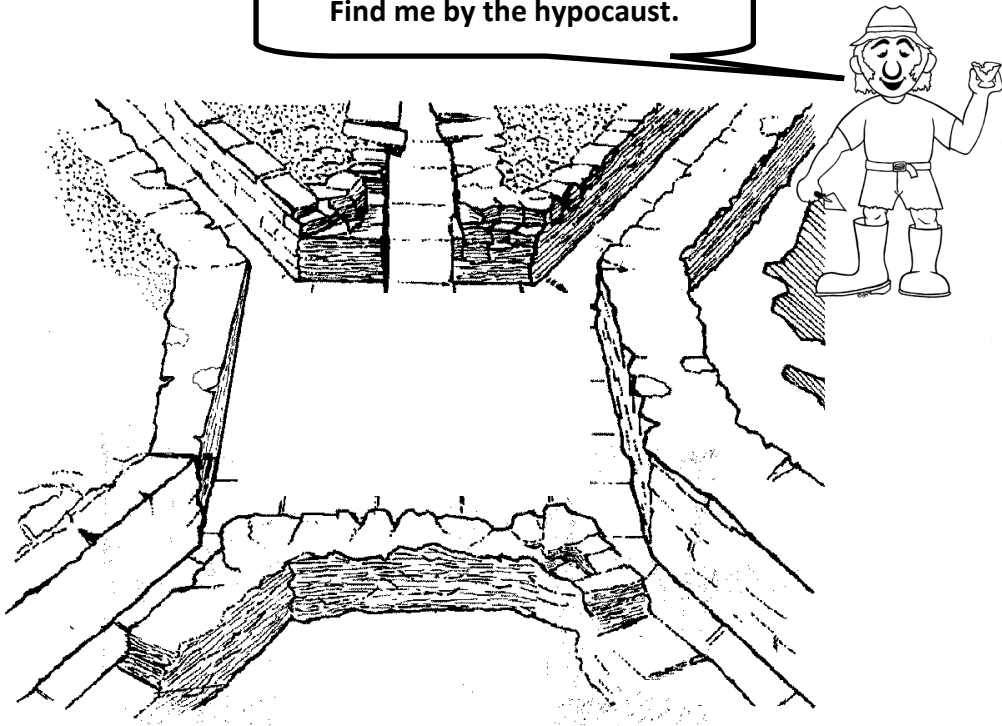

There are some '**mistakes**' on this **mosaic**. Can you
find **one**? **Look really hard**.

Only the gods are perfect so maybe the '**mistakes**'
were put there on purpose.

The North Wing

Find me by the hypocaust.

This is a **hypocaust**. It was under the floor and heated the room.

Draw in the missing parts which held the floor up.

Talk to someone and find out how it worked?

Draw arrows → → to show how the air moved through it.

A **mosaic** floor would have been on top of it. Can you see the **old** mosaic floor under it, though?

The Romans had fires in the middle of their rooms before they built hypocausts.

Find me by the Roman room.

Talk to someone about what you can see.

Can you see how has the material in the room been made?

Draw or write about some of the things you like.

Find me at the display of Jewellery.
Look hard. Can you find a child's ring?

Find a ring stone with a picture carved on it. **Draw**
or **describe** it in the box.

--

Draw some of the other jewellery.

Look around the museum for more jewellery.

Find a **tiny stone** with a **horse** carved on it.

Find a **ring** with **writing** on it.

--	--	--

Find me by the statue of a boy.

This statue is broken.

Draw the missing parts.
